Research Assistant Scientist of Epidemiology

The Department of Epidemiology is recruiting a non-tenure track faculty member at the Research Assistant Scientist level. The Department is situated jointly within the College of Public Health and Health Professions and the College of Medicine in the new Clinical and Translational Research Building, facilitating collaborative multidisciplinary research. Faculty members teach in the MS and PhD in Epidemiology programs and the Master of Public Health program and participate in student mentoring. Our current faculty are leaders in aging, cancer, cardiac, chronic, environmental, infectious, substance abuse and psychiatric epidemiology. The Department works closely with the NIH-funded Clinical and Translational Science Institute and is home to HealthStreet and a Fogarty International Center Training Grant.

The position will be supported by NIH-funded projects in behavioral epidemiology for HIV and other infectious and non-infectious diseases. The position duties include but are not limited to the following: preparing new research grants, conducting literature search, performing data processing, conducting statistical analysis, and preparing manuscripts for publication.

Qualifications

- Doctoral degree in Epidemiology or related field required
- Substantial expertise in epidemiology
- Strong publication record
