Clinical Assistant Professor
Clinical Neuropsychology Psychologist
Department of Clinical & Health Psychology

The Department of Clinical and Health Psychology in the College of Public Health and Health Professions at the University of Florida is seeking applicants for a full-time (1.0 FTE), 12-month Clinical Assistant Professor (non-tenure track) position in Clinical Neuropsychology Psychology.

Position: The proposed Clinical Assistant Professor faculty line in the specialty area of neuropsychology would assist in rapidly expanding services in the pre-surgical center as well as bring research funding to study and address barriers to participation in research on behavioral prevention approaches to dementia. Specifically the position will represent a blended half-time research, half-time clinical position. For research, the person is expected to be able to support 50% of their FTE at the time of hire and sustain that level of funding for at least the first 2 years of employment. Ideally, this person will establish studies regarding disparities in prevention research with Alzheimer’s disease and related dementia. Clinically, the person in this position would be expected to 1) provide pre- and post-surgical cognitive evaluations (30% of total FTE), and 2) provide outpatient neuropsychological evaluations (20% of total FTE) on a regular five day a week basis.

Work Setting & Gainesville Community: This Clinical Assistant Professor will be a member of the Department of Clinical and Health Psychology, which houses APA-accredited doctoral and internship programs in clinical psychology. Faculty hired into these positions will work closely with colleagues within the department, physicians, and other health care providers in a dynamic healthcare environment. Day-to-day clinical service delivery responsibilities may take place across a variety of settings within the UF Health Science Center, including our outpatient UF Psychology Clinic, or the inpatient units at UF Health & Shands Hospital, and within primary care settings across the UF Health Center. The UF Psychology Clinic is an independent outpatient clinic (http://chp.phhp.ufl.edu/services/psychology-clinic/) with close programmatic interactions with the UF Health comprehensive care programs (https://ufhealth.org/). The UF Health Center is the largest and most comprehensive academic Healthcare Center in the Southeast, encompassing six colleges and a statewide network of affiliated hospitals and clinics (https://ufhealth.org/locations). Gainesville is a beautiful city located in the north-central region of Florida (http://www.cityofgainesville.org/) with low cost of living, affordable housing, great schools, numerous outdoor activities, and all the advantages of a large university community.

Applicant Qualifications: Interested applicants should have completed APA-Accredited graduate and clinical internship programs and have two years of post-doctoral training in clinical neuropsychology involving service delivery, ideally within hospital and interdisciplinary care settings. Applicants must have a doctoral degree in Clinical, School or Counseling Psychology and be licensed or license-eligible in the State of Florida.

Start Date, Application Materials & Deadline: This position is anticipated to start in the Summer of 2017. The application requires submission of 1) a Letter of Interest, 2) current Curriculum Vitae (CV), and 3) three references. Application Deadline is March 29, 2017.

Application Submission: All applications must be submitted online. To view the job posting online and submit an application packet, go to http://explore.jobs.ufl.edu/cw/en-us/listing/ and search by Job# 501690. Questions can be directed to Dr. Glenn Smith (glennsmith@phhp.ufl.edu)

The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the US. Searches are conducted in accordance with Florida’s Sunshine Law.
