Assistant/Associate/Full Professor of Biostatistics

The Department of Biostatistics is recruiting up to four tenure-track faculty members at the Assistant, Associate or Full Professor level. The Department is situated jointly within the College of Public Health and Health Professions (PHHP) and the College of Medicine (COM), in the new Clinical and Translational Research Building, facilitating multidisciplinary research. Faculty members pursue independent and collaborative research; they also teach in the MS and PhD in Biostatistics Programs and support a concentration in Biostatistics as part of the Masters of Public Health Program. They are advisors and mentors to a wide variety of students. Our current faculty members are leaders in big data analysis, cancer, genetics, infectious disease modeling and intervention studies, medical image processing, metabolomics data analysis, survival analysis, causal inference, statistical methods of health surveys, high-dimensional inference, longitudinal data analysis, and clinical trials. The Department works closely with the NIH-funded Clinical and Translational Science Institute and is home to the Children’s Oncology Group, the Center for Statistics and Quantitative Infectious Diseases and multiple NIH and other grants.

Qualifications

Qualifications include a doctoral degree in biostatistics or related quantitative discipline. For senior hires, a record of academic accomplishments, scholarly recognition, external research support, and leadership responsibilities to warrant appointment at the level of professor or associate professor is essential. For hires at the assistant professor level, potential to develop such a record should be demonstrated.

To Apply

Submit cover letter, CV, and a list of 3 references
Review of materials will begin on June 1, 2017 and continue until appointments are made.

The University of Florida is located in Gainesville, FL, which has been ranked the Best Place to Live in the US by Sperling and Sander’s Cities Ranked & Rated. The College of Public Health and Health Professions and the College of Medicine are in the University’s Health Science Center, which also includes the Colleges of Pharmacy, Nursing, Dentistry, and Veterinary Health. The Health Science Center also partners with the immediately adjacent UF Health Shands Hospital, and Malcom Randall VA Medical Center, and the UF Health Science Center Regional campus located in Jacksonville, FL. Additional major institutes and centers located at the University of Florida include the Emerging Pathogens Institute, the Institute of Child Health Policy, the UF Health Cancer Center, the UF Genetics Institute, the Clinical and Translational Science Institute and the McKnight Brain Institute, all of which provide state-of-the-art environments and access to large data sets for faculty collaboration.

The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the US. Searches are conducted in accordance with Florida’s Sunshine Law.
