Assistant Professor
Clinical Neuropsychology Psychologist
Department of Clinical & Health Psychology

The Department of Clinical and Health Psychology in the College of Public Health and Health Professions at the University of Florida is seeking applicants for a full-time (1.0 FTE), 12-month tenure-track Assistant Professor position in Aging Cognitive Neuroscience.

Position: The incumbent in this position will be expected to maintain a nationally recognized externally funded research program, and to integrate his or her research into current and new research enterprises that incorporates expertise in cognitive and neurophysiological consequences of aging, alcohol consumption and HIV. The candidate should have expertise in socio-affective neuroscience, autonomic function, non-invasive autonomic stimulation and MR methodology including MRI, fMRI, MRS of GABA. The optimal candidate will have expertise and/or research experience in neuroendocrine contributions to cognition, particularly with respect to oxytocin, and HIV-Alcohol use interactions. Additionally, the incumbent will be expected to attend the departmental faculty meetings and the interdisciplinary seminar series. The development of research studies, publications and presentations of results will be important measures of academic productivity. Preference is given to candidates with current or anticipated NIH career development funding.

Work Setting & Gainesville Community: This Assistant Professor will be a member of the Department of Clinical and Health Psychology, which houses APA-accredited doctoral and internship programs in clinical psychology. Faculty hired into these positions will work closely with colleagues within the department, physicians, and other health care providers in a dynamic healthcare environment. Day-to-day clinical service delivery responsibilities may take place across a variety of settings within the UF Health Science Center, including our outpatient UF Psychology Clinic, or the inpatient units at UF Health & Shands Hospital, and within primary care settings across the UF Health Center. The UF Psychology Clinic is an independent outpatient clinic (http://chp.phhp.ufl.edu/services/psychology-clinic/) with close programmatic interactions with the UF Health comprehensive care programs (https://ufhealth.org/). The UF Health Center is the largest and most comprehensive academic Healthcare Center in the Southeast, encompassing six colleges and a statewide network of affiliated hospitals and clinics (https://ufhealth.org/locations). Gainesville is a beautiful city located in the north-central region of Florida (http://www.cityofgainesville.org/) with low cost of living, affordable housing, great schools, numerous outdoor activities, and all the advantages of a large university community.

Applicant Qualifications: Interested applicants must have a PhD in neuroscience or a closely related discipline. Competitive candidates will have at least two years of post-doctoral experience in cognitive neuroscience.

Start Date, Application Materials & Deadline: This position is anticipated to start in the summer of 2017. The application requires submission of 1) a Letter of Interest, 2) current Curriculum Vitae (CV), and 3) three references. Application Deadline is July 5, 2017.

Application Submission: All applications must be submitted online. To view the job posting online and submit an application packet, go to http://explore.jobs.ufl.edu/cw/en-us/listing/ and search by Job# 502712. Questions can be directed to Dr. Ron Cohen at roncohen@ufl.edu.

The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the US. Searches are conducted in accordance with Florida’s Sunshine Law.
